

Abbeywood Tots Stockwood News Letter

Frogs

The frogs have been looking at growing through plants. The children explored all the different parts of the flowers and painted pictures of them.

The children went on spring time hunts and used magnifying glasses to find them. The frogs enjoyed planting their own cress seeds too!

Easter Bonnet Parade

Thank you for attending the Easter bonnet parade. The children learned a fantastic dance routine and loved showing off their wonderful bonnets!

What create bonnets the children made!

Thank you to the children and parents for helping with the bonnets.

Tadpoles

Tadpoles have been exploring quantities and following baking recipes this month alongside an interest in animals. The children made zebra cakes to learn about the patterns and colours on different animals and loved using the dye to colour the cakes. Tadpoles explored water capacity using sponges, sieves and funnels.

Butterflies

The butterflies have been exploring a variety of textures this month. The children explored the textures of the forest by taking part in forest school and feeling sensory forest frames. The children have been story telling using logs with forest creatures on them. The butterflies visited Grimsbury farm this month and matched farm animal pictures at nursery.

Forthcoming Events

April

Easter holidays 10th-24th April
