

Welcome

We would like to welcome everyone into our new year of 2018.

Baby Floor.

Throughout January the baby floor have welcomed lots of new faces, who have settled very well into their new environment and have created good strong relationships with their key team and other children.

The baby floor planned activities around making new friends and interacting with others so which we understand helps the babies create strong bonds.

The babies have also enjoyed sensory activities, exploring sand, foam, painting and water play.

Tiddly Tadpoles.

Kirsty from the baby floor has been introducing our tiddly tadpoles to the tadpole group ready for when they turn 2!

Kirsty engages the children to join in with activities and get the children to explore their new environment with just their small group. The Tiddly Tadpoles get a lot more access to the garden and become more independent during this time.

This also helps the Tiddly Tadpoles get to know their new key team who are Danika and Fernanda. Where they can create relationships before they turn 2!

Tadpoles.

This month the tadpoles concentrated on 'All about me' because like the baby floor the numbers have increased from new starters and children transiting down stairs into the Tadpole group.

Danika and the children took part in activities that involved looking at feelings, talk about home life, mark making and making relationships.

Pre-school.

Throughout January the pre-school children have been looking at celebrations where they have created a fantastic display of all the yearly celebrations. We have been thankful that our parents have been able to come in and talk about their religion and even did a cooking activity with the children. Which was great?

The Pre-school children have also been attending Cooking club with our nursery chef at our Head Office branch baking cakes or making waffles to bring back for snack.
