

Welcome

Please can parents make sure that the children are coming in with spare clothes, hats, sun cream or weather appropriate clothing!

We also would like to welcome Teacher David to our team. :)

Baby Floor.

The babies have enjoyed making relationships with our new friends that have started with us. The children have enjoyed doing lots of sensory activities, exploring foam, sand, water, different foods and textures.

The baby floor have also enjoyed being outdoors in the nice weather we are having at the moment.

Tiddly Tadpoles.

The tiddly tadpoles have been very creative, they have been making collages, different prints and patterns, gluing and sticking! You name it we've been creative.

The Tiddly's have been transitioning well, and this has benefitted them so much for when they are moving downstairs.

Tadpoles.

Throughout March and April the tadpoles have also shared their time with holiday bear, taking him out on lots of adventures.

The tadpoles have been enjoying the nice weather by going out on walks, where they have fed the ducks, looked at the trains and found objects to bring back to the nursery.

The tadpoles also enjoy messy play and being out in the garden!

Pre-school.

Holiday Bear has enjoyed going home with our Pre-school children this month! The children and their families have made holiday bear feel very welcome and he's been very well looked after. If you've not had holiday bear yet, don't worry he'll be coming home with you very soon!

The Pre-school children have enjoyed sending time with Teacher David, who has been doing lots of fun and exciting activities with the children. Involving numbers, letters and shapes!
